Jowai.

DEPARTMENT OF PHYSICS

Students graduating with a B.Sc. Honours in Physics should be able to:

PSO1	Gather more information and knowledge in all various branches of physics, Nuclear Physics, Quantum Physics, electrodynamics, electronics optics, electronics etc
PSO2	Apply the concepts and deeper meaning of physics in real world.
PSO3	Explore the detailed behavior of the physical system of the nature in broader context
PSO4	Link the physics concept in other disciplines such as chemistry, Computer science, and engineering etc.
PSO5	Understand the real impact and the applications and the benefits of physics in society.
PSO6	Pursue higher studies in the field of research and discover higher level of knowledge of physics to benefit the society.
PSO7	Perform series of physics experiments and demonstrate their scientific knowledge to interpret and analyze the data so obtained and draw a conclusion in support of their data.
PSO8	Know about the basic working principle of various models involved and apply the ideas to create new innovation.
PSO9	Develop a clear concept of atomic and nuclear physics which is very important to explain larger context of all natural phenomenon
PSO10	Understand all the natural forces of the universe and to create and analyze the problem of interest involving these natural forces.
PSO11	Understanding the importance and the impact of all round application of Physics in larger picture in the context of environment and the need for sustainable energy for Development, without putting pressure in the environment.
PSO12	Prepare themselves and to recognize the need to adapt with the technological change. They should be able to lead in diverse field and in multiplicity setting

Principal,
K. N. Gout. College
Jowai.

DEPARTMENT OF CHEMISTRY

Students graduating with a B.Sc. Honours in chemistry should be able to:

PSO 1	Illustrate knowledge of selected topics from analytical, organic, inorganic, physical, environmental, polymer, Biochemistry, quantum, Nano Chemistry, etc and apply this knowledge to analyze a broad range of Chemistry related phenomena.
PSO 2	Apply appropriate techniques for the qualitative and quantitative analysis of Chemicals in laboratories and in industries.
PSO 3	Demonstrate that they have learned laboratory skills, e.g. handling of equipments & Chemicals with necessary safety measures, measurements in a physics laboratory and analyze the data to arrive at suitable conclusions.
PSO 4	Express their capability of oral and written scientific communication.
PSO 5	Think critically and work as a team-member as well as independently.
PSO 6	Exhibit analytical and systematic attitude required for scientific approach.
PSO 7	Pursue post-graduate studies in Chemistry and related disciplines.
PSO 8	Be employed in various capacities in educational institutions, industry, government labs, and elsewhere, where knowledge of Chemistry and its applications and quantitative problem-solving skills are important.
PSO 9	Be intelligent and critical consumers of scientific inventions as well as information.

DEPARTMENT OF MATHEMATICS

On completion of the B.Sc Mathematics Programme, the student will

PSO 1	Acquire good knowledge and understanding in advanced areas of mathematics
PSO 2	Be able to communicate mathematical thoughts and ideas clearly and concisely to others in the oral and written form
PSO 3	Be able to formulate and develop mathematical arguments in a logical manner
PSO 4	Acquire problem-solving skills in a broad range of mathematics
PSO 5	Be able to work on their own during preparation for competitive examinations.
PSO 6	Be prepared to use mathematics in their careers

Principal,
K. N. Govt. College
Jowai.

DEPARTMENT OF BOTANY

Students graduating with B.Sc. Honours in Botany should be able to:

PSO 1	Apply the knowledge of Biology to make scientific queries and enhanced the comprehension potential
PSO 2	Successful Transfers of Scientific knowledge both orally and in writing.
PSO 3	Demonstrate that they have learned laboratory skills, e.g. handling of equipment with necessary safety measures, and analyse the data to arrive at suitable conclusions.
PSO 4	To interact well with fellow students as a group and to be a leader to perform any task.
PSO 5	To convey and practice Social, environmental and Biological ethics
PSO 6	Insist the significance of conserving a clean environment and sustainable development
PSO 7	Students should be able to acquire digital skills and integrate the fundamental concepts with modern tools.
PSO 8	To demonstrate procedural knowledge that creates different types of professionals in the field of Botany i.e. research and development, teaching government and public services
PSO 9	Be intelligent and critical consumers of scientific inventions as well as information

ZOOLOGY DEPARTMENT

After completing and graduating with a degree in Zoology, the students have a wide scope in different fields. Apart from pursuing for higher studies (master in the subject with specialization in different branches in Zoology), the students can also opt from a variety of related branches of science:

- ✓ Related paramedical fields such as health sciences.
- ✓ Agricultural sciences and Master in Forestry
- ✓ Master in Food technology and Processing
- ✓ Wildlife officers
- ✓ Marine Biologist
- ✓ Professional field such as Poultry, Sericulture, apiculture, Pisciculture, dairy etc.,
