Poster Presentation Competition on
“THE IMPORTANCE OF EDUCATION”

Concept Note

The idea of education has evolved over the course of years. From time immemorial, it is recognized as one of most important aspects in the development of positive changes in the minds of children and young adults by communicating knowledge and values. Education is essential to the preservation and progression of our civilization. Therefore, the understanding of the fundamental need of education in a society has to be passed on to subsequent generations.

There is no doubt that the widespread accessibility of formal education in the present age has contributed to the many changes in the shaping of historical events, social interactions and medical advances. The easy accessibility of technology in the present times has given new ideas to the techniques of delivering education through many non-traditional methods. This has reshaped our ideas of learning as various new tools and methods are available to both teachers and learners.

The Poster Presentation Competition is organized with an objective of highlighting the importance of education to the present generation of students in our college. The ideas of educational experiences that are enriching and innovative methods of imparting education, the recognition of the social impact of education, the understanding of the educational outcomes at the individual and the collective levels, and the visualization of future achievements through education, are some of the aspects to be focused in the posters. The following sub-themes or themes relating to them are to be considered: -

Impact of social media on education

The future of education

Social changes due to education

Use of innovative methods in educational communication

Education and young people

Educational experiences as character-building

Education as continuous learning

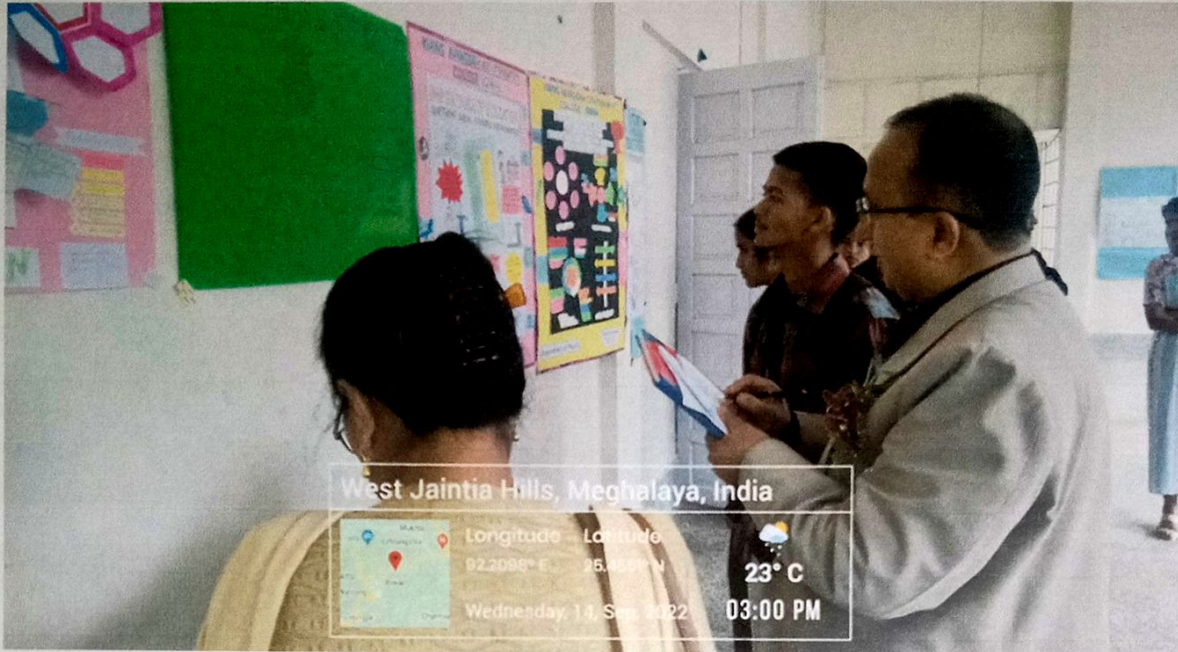

Note: Poster size- 2.6ft x 3ft

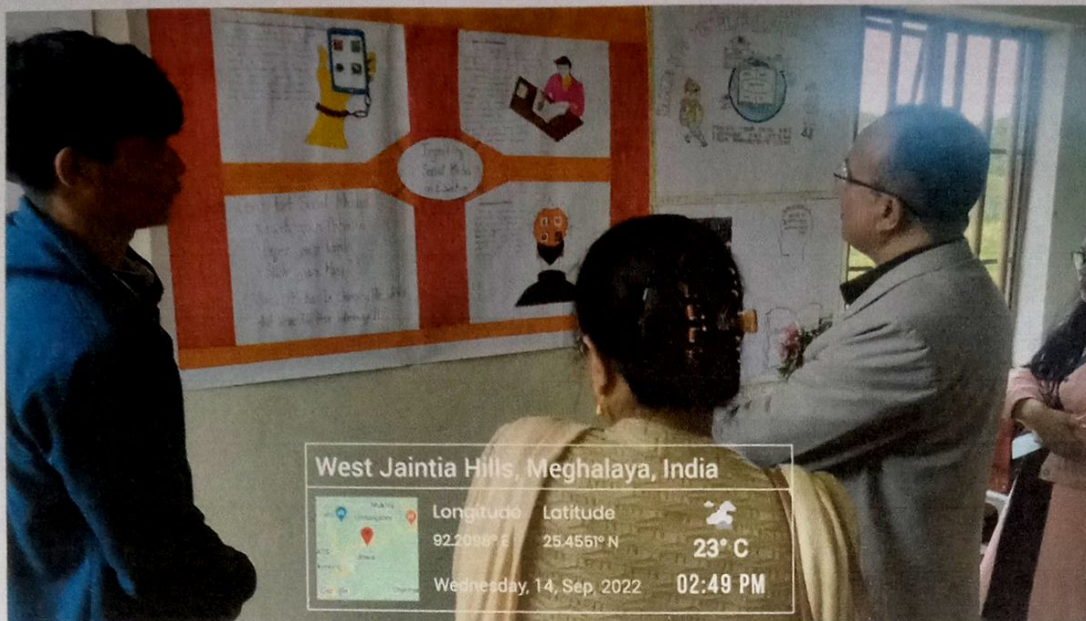

Criteria for judgment: (i) Presentation (visual appeal, balance, conciseness, legibility)

(ii) Content(relevance, grammar& spelling)
